QUALITATIVE ASSESSMENT OF LIQUIDITY CONDITION (QUARTERLY)

Bank : PT Bank CTBC Indonesia

Reporting Month : Q2-2019

Analysis

Based on POJK no.42/POJK.03/2015 concerning Liquidity Coverage Ratio Requirements for Commercial Banks, we would like to inform as follows:

1. The Bank's LCR for Q2-2019 is 164.77%, still above OJK's minimum requirement of 100%. This indicates that the Bank's liquidity adequacy is satisfactory and is able to meet the Bank's liquidity needs for the next 30 (thirty) days in a stress scenario.
2. The Bank's LCR ratio increased by 2.17% compared to Q1-2019 which was at 162.60%. This was mainly due to the increase in total HQLA of IDR 276.5 billion (+7.86%) and total Estimated Cash Inflow of IDR 610.99 billion (+8.77%).
3. The total HQLA owned by the Bank in Q2-2019 is HQLA Level 1 with an average ownership of government securities of IDR 2.80 trillion. Currently the Bank does not have the portfolio of HQLA Level 2A and 2B.
4. The estimated Net Cash Outflow for Q2-2019 was IDR 2.30 trillion, which was the result from the estimated cash outflow of IDR 9.20 trillion deducted by the estimated cash inflow of IDR 7.58 trillion.
5. The estimated cash outflow for the next 30 days from individual and corporate customers after taking into account the run-off rate was IDR 114.08 billion and IDR 1.44 trillion respectively. In Q2-2019, the Bank's total deposits were relatively stable with an increasing trend. The growth in the Bank's third party funds in Q2-2019 were mostly from corporate time deposits with maturity of above 1 month. The Bank is committed to continuously improving more stable funding such as the deposit from individuals and micro/small businesses.
6. The estimated cash inflow for the next 30 days from receivables from non-financial institutions after taking into account the inflow rate were IDR 475.90 billion, while the receivables from financial institutions were IDR 554.26 billion.
7. The Bank has implemented the liquidity risk management process and actively identifies, measures, monitors, and controls the Liquidity Risk exposure of each product and activity using several parameters or indicators such as MCO, stress testing, liquidity ratios, such as Loan to Deposit (LDR) ratio, Loan to Funding (LFR) ratio, Short Term Foreign Borrowing (STFB), Top 50 Depositors ratio, etc.
8. Liquidity Risk management strategy, such as funding strategy, positioning and intragroup Liquidity Risk management, collateralized high quality liquid assets, and etc, are regularly reviewed in ALCO, RMC, RMOC and/or BOC meetings.
